***Election/Restrictions***

This application contains claims directed to the following patentably distinct species of the claimed invention: Figure 2 claims 1, 3, 5 and 6; Figure 3, claims 8 and 9; Claims 10 and 11 not illustrated..

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over

the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

During a telephone conversation with Mr. Jeffrey Kurin on 9/26/2005 a provisional election was made without traverse to prosecute the invention of Figure 2, claims 1, 3, 5, and 6. Affirmation of this election must be made by applicant in replying to this Office action. Claims 8-11 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

#### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Jeffrey Kurin on 9/28/2005.

The application has been amended as follows:

Claim 1 – in line 1, “A prescription method of treating tissue” has been deleted and in its place –A method to create a treatment strand—has been inserted; and  
- in line 4, “a” has been deleted and in its place --the—has been inserted.

Claims 8-11 have been canceled.

The title has been rewritten as follows; --A Method for Making Treatment Strands.--

The following is an examiner's statement of reasons for allowance: the prior art does not teach or fairly suggest a method of creating treatment strands wherein a plan is approved, seeds are threaded onto a material and positioned according to the treatment plan and heating to cause the material to expand and fix the seeds at the specified spacing from the plan.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Samuel G. Gilbert whose telephone number is 571-272-4725. The examiner can normally be reached on Monday-Friday 6:30-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Eleni Mantis-Mercader can be reached on 571-272-4740. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
